NEMESIS/Dungeon Master

An adventure in **NEMESIS** is a quest that brings you to the shadowy edges of imagination and the forefront of game technology. You alone can help your character to grow in power from person to demigod.

CP/M compatible

- Based on asynchronous time input. (Game does not wait at the prompt line for you.)
- You may create and play any number of different characters.
- You may choose a combination from 15 creature types and 15 occupations for your character.
- Follows Dungeons and Dragons® character stats list format.
- Maintains a complete map of your character's travels and displays it on your CRT as you play.
- You may print out the map of your character's explorations.
- Comes with a 10 level dungeon, but with Dungeon Master multiple dungeons are possible.
- Completely open-ended game.

Also available is Dungeon Master, a program which allows you to create many different dungeons by editing and constructing the necessary elements (maze, map, item table, and monster table).

Requires 48K CP/M and a terminal with cursor addressing, clear line, and clear screen functions.
